MS Power Point

PERSONAL PROJECTS

WEATHER APP

- It is a basic android based application.
- It is built in Java using Android Studio.
- This app displays the temperature and pressure of city that you want to know. I have used Open weather map API for collecting data .

WORDIFY GAME

- It is an android based game application, built in Java language using Android Studio.
- In this game player is given a five letter word in which some letters are missing and player have to guess the correct word.

OMNIFOOD WEBSITE

- Omnifood is a food delivery service with the mission to bring affordable and healthy meals .
- It is a website I made to better understand front end web development. I have used HTML, CSS, and Javascript in this project.
